Objective:

Seeking the position of a JDE Analyst Programmer in a reputable organization where I can put my skills and knowledge into practice for the mutual benefit and growth.

Snapshot:

A highly motivated and results driven IT professional with +10 years of experience in designing systems and applications, managing complete software development life cycle (SDLC). With 10+ years of experience in JDE E1 development/integration and expertise in Sales Order Management, Procurement, Inventory, Manufacturing and Finance modules.

Accomplishments:

- Designed and developed Transaction Management System for managing JDE Interfaces, transactions, error handling and error notification
 - Full control over JDE Interfaces, transactions management and interfaces error notification
- Developed real time JDE integration with Credit Card payment gateway (Cybersource)
 - Credit Card Subscription, Authorization and Settlement transactions were integrated with Sales Orders
- Developed JDE interfaces for third-party Shop-Floor management system
 - JDE outbound interfaces: Item Master, Item Balance, etc.
 - JDE inbound interfaces: Work Order Material Issues/Completions transactions performed with custom BSSV's
- Developed JDE interfaces for various third-party logistic operators
 - Sales Order Shipment Confirmation BSSV with custom functionality
 - Various inbound/outbound interfaces created using JDE Real Time Events, Oracle Service Bus, Service Oriented Architecture (BPEL, XSL transformations, etc.) and Microsoft Integration Services
- Designed and implemented zero-cost JDE Data Integrity System based on Linux shell scripts, cron scheduler , sqlplus and mail
 - Data Integrity System allows to act proactive and fix potential issues before they affect business-process either automatically or with necessary human intervention
- Implemented centralized git repositories and work-flow for management of JDE Source Code, Database Objects and JDE Interfaces (Fusion Middleware, Integration Services)
 - Every object in ERP environment (including JDE Source code, Versions [Data Selection and Processing Options], Interfaces, etc.) is traceable with full history of changes

Summary:

- Wide experience of JDE software development life cycle for diverse clients across the globe
- Extensive skills in JDE E1 Tool Set and Integration technologies like Fusion Middleware, Microsoft Integration Services
- Involved in Full Life Cycle Implementation:
 - Creating Functional specs, Technical specs, Development, Testing, Deployment
 - Proven knowledge in CNC activities like: package assembly/build/deployment, Security/Roles setup, OCM Mappings, Scheduler
 - Involved in JDE Upgrade, retrofitting custom modifications
 - Experienced in Interoperability, EDI and Real Time Events in JDE E1
 - Participated in JDE E1 integrations with Fusion Middleware, Microsoft Integration Services using JDE Business Services and legacy sources such as files, Z-Tables
 - Provided Go-Live support, troubleshooting and resolving production issues
- Can handle multiple projects simultaneously at the same time without compromising with quality and time-line

- Sound knowledge in JDE Distribution & Logistics (Sales, Purchase, Warehouse & Inventory), Finance (A/R, A/P, G/L), Manufacturing (Work Orders, Shop Floor Control and BOM)

Skills:

- JDE E1 Tool Set:
 - Report Design Aid(RDA), Form Design Aid (FDA), Table Design Aid (TDA), Business View Design Aid (BVDA)
 - Business Functions (BSFN) NER & C (Microsoft Visual Studio)
 - Business Services, - BSSV (JDeveloper), XML Interoperability, Table Conversions, Real Time Events (RTE)
 - Debugging Tools (ER & VS++), Object Management Workbench (OMW), Object Management Configuration (OMC)
 - Development of E1Pages, OneView Reporting, Watchlists
- Fusion Middleware
 - JDeveloper (SOA 11g, 12c) - BPEL, JMS Queues, Mediators, DB-Adaptors, File-Adaptors, Web-Services
 - Eclipse (OSB 11g)
 - Fusion Middleware and Oracle Database Installation
- Integration Services
 - Microsoft Visual Studio (Integration Services packages, Jobs, Windows Services, etc.)
- Oracle DB:
 - Enterprise Manager Console, SQL Developer and sqlplus
- Generic:
 - Git client/server installation and setup
 - Linux OS server installation, shell scripting

Work Experience:

JDE Analyst Programmer at Jurlique International (July 2012 - Present)

Functions and responsibilities:

- Delivery of JDE based applications which includes the full software development life-cycle - requirements gathering, delivery & release
- Implementation of Oracle Fusion Middleware as primary integration platform for JDE Interfaces
- Design, development, testing, deployment and support of JDE Interfaces
- Fusion Middleware environment (server) installation, setup and maintenance
- JDE and Fusion Middleware development workstations installation, setup and maintenance
- Design, development, deployment and support of JDE Data Integrity System
- JDE E1 Upgrade 8.12 to 9.1, retrofitting of custom modifications

JDE E1 Developer at Freelance (May 2011 - July 2012)

Functions and responsibilities:

- Development of custom Business Services (BSSV) for JDE E1 integration project

JDE E1 Development Team Lead at ELKO Group (July 2008 - March 2011)

Functions and responsibilities:

- Development team management
- Delivery of JDE based applications which includes the full software development life-cycle - requirements gathering, delivery & release
- Creating functional and technical specification according to business process requirements
- Modification of standard and custom objects based on created technical specifications
- Testing
- User trainings and support

Business Applications Consultant at OBI Ukraine (November 2007 - May 2008)

Functions and responsibilities:

- Modification of global corporate business processes and applications for local legislation compliance
- Requirements gathering

- Creating functional and technical specifications
- Creating user manuals
- User trainings
- Technical and functional support of business applications

Senior JDE E1 Consultant at Kvazar-Micro (Aug 2006 - Oct 2007)

Functions and responsibilities:

- JDE E1 development
- Participation in JDE E1 full-cycle implementation
- Creating technical specifications based on functional specification requirements

JDE E1 Developer at Freelance (Aug 2005 - Aug 2006)

Functions and responsibilities:

- JDE E1 development
- Modification of standard JDE E1 applications and reports according to new business-processes requirements
- Development and optimization of custom JDE E1 applications and reports

JDE E1 Developer at Robertson & Blums Corporation (May 2002 - Aug 2005)

Functions and responsibilities:

- JDE E1 development according to technical specifications
- Participation in multiple JDE E1 full-cycle implementation projects

Localization Team Lead at Robertson & Blums Corporation (Sep 2000 - May 2002)

Functions and responsibilities:

- Management of Localization team
- Translation and localization of JDE E1 Documentation
- Translation and localization of various business applications

Education:

- MSc in Computer Science, National Technical University of Ukraine, 1995 - 2001

Training & Certification:

- Oracle JD Edwards EnterpriseOne - Technical Foundation Implementation Champion (Oracle Corporation)
- Oracle SOA Suite 11g: Administration (Oracle Corporation)
- Oracle SOA Suite 11g: Build Composite Applications (Oracle Corporation)
- Oracle Service Bus 11g: Design & Integrate Services (Oracle Corporation)
